

## SPRINT-3

## IDEATION PHASE

### EMPATHY MAP

Visualizing and Predicting Heart Diseases with an Interactive dashboard

# BRAINSTROM

## Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

10 minutes to prepare  
 5 hours to collaborate  
 2-6 people recommended

### Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

- Team gathering**  
 Gather who should participate in the session and send an invite. Share relevant information or pre-work ahead.
- Set the goal**  
 Think about the problem you'll be focusing on solving in the brainstorming session.
- Learn how to use the facilitation tools**  
 Use the Facilitation Surgesets to run a happy and productive session.

### Define your problem statement

What problem are you trying to solve? Frame your problem as a **How Might We** statement. This will be the focus of your brainstorm.

5 minutes

Problem

To find out the effective and predictive analysis about the heart diseases.

Key rules of brainstorming

To run an smooth and productive session

- Stay in topic
- Encourage wild ideas
- Defer judgment
- Listen to others
- Go for volume
- If possible, be visual

## Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

### Team Leader Sikkandhar p

platform should support in all devices	we should include filter option	It should be user friendly
It should be interactive	Should contain the valid information	User can access from anywhere

### Team Member1 Sanjay S

To analyze the problem	It should reach the best filtration	Should not contains any unwanted columns
It should include several stages	They must be in the coherent order	Data should be valid

### Team Member2 Praveen A

Data cleaning must be done	Data gathering	User interface at the client side
helps in preventing the loss	predicting the events in previous itself	It should not be too long process

### Team Member 3 Muthalibu A

should use multiple different algorithms	provide effective solutions	Helps in many organisations
Easy to get separation of the particular information	It should be responsive	Data should be integrity

## 1

### Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

## 2

### Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on the grid to determine which ideas are important and which are feasible.

20 minutes

## 3

### After you collaborate

You can export the board as an image or pdf to share with members of your company who might find it helpful.

#### Quick add-ons

- Share the board**  
Share a view link to the board with collaborators to help them in the long about the outcomes of the session.
